

FINDING ARTICLES IN THE RESTORER MAGAZINE

June 12 - A member recently asked me about installing seat belts in his Model A, and although this question has been asked and answered in **The Restorer magazine** over the years, members have a tough time finding the articles. That goes for ANY article that's appeared in the nearly 60 years of publication.

There's a good resource here on the website for finding those articles, and it's called RINDEX - **Restorer Index**. Actually, there are two of them: **RINDEX50** covers the first 50 years of **The Restorer**. **RINDEX51-59** covers the last 9 years. You'll find links to them on the [Downloads](#) page.
